## **Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings of claims in the application:

## **Listing of Claims:**

- 1-28. (Canceled)
- 29. (Previously Presented) A tissue adhesive comprising fibrinogen and an admixed elastase inhibitor, wherein said elastase inhibitor is selected from the group consisting of eglin, α1-antiprotease, and mixtures thereof.
  - 30-32. (Canceled)
- 33. (Original) A tissue adhesive as set forth in claim 29, wherein said tissue adhesive is comprised of human proteins.
  - 34-35. (Canceled)
- 36. (Previously Presented) A tissue adhesive as set forth in claim 29, wherein the ratio in weight of said elastase inhibitor to said fibrinogen is from 1:100 to 1:150,000.
- 37. (Previously Presented) A tissue adhesive as set forth in claim 29, wherein the ratio in weight of said elastase inhibitor to said fibrinogen is from 1:500 to 1:110,000.
- 38. (Original) A tissue adhesive as set forth in claim 29, wherein said tissue adhesive contains at least 10<sup>-6</sup> U of elastase inhibitor per gram of fibrinogen.
- 39. (Original) A tissue adhesive as set forth in claim 29, wherein said tissue adhesive contains from between 10<sup>-3</sup> and 10 U of elastase inhibitor per gram of fibrinogen.
- 40. (Original) A tissue adhesive as set forth in claim 29, further comprising plasminogen in an amount of at least 0.0001 mg/mg of fibrinogen.

Appl. No. 09/486,516 Amdt. dated January 13, 2006 Reply to Office Action of November 14, 2005

- 41. (Original) A tissue adhesive as set forth in claim 40, wherein said plasminogen is contained in an amount of at least 0.001 mg/mg of fibrinogen.
- 42. (Original) A tissue adhesive as set forth in claim 40, wherein said plasminogen is contained in an amount of more than 0.01 mg/mg of fibrinogen.

43-50. (Cancelled)

51. (Original) A tissue adhesive as set forth in claim 29, wherein said tissue adhesive is free from kininogenic proteins.

52-53. (Cancelled)

- 54. (Original) A tissue adhesive as set forth in claim 29, wherein said tissue adhesive is resistant to lysis in an environment with high activity for a period of time which is at least 10 hours.
- 55. (Original) A tissue adhesive as set forth in claim 29, wherein said tissue adhesive is resistant to lysis in an environment with high fibrinolytic activity for a period of time which is at least 15 hours.
- 56. (Original) A tissue adhesive as set forth in claim 29, wherein said tissue adhesive is lyophilized.
- 57. (Original) A tissue adhesive as set forth in claim 29, wherein said tissue adhesive is present in solution.
- 58. (Original) A tissue adhesive as set forth in claim 57, wherein said solution is deep-frozen.
- 59. (Original) A tissue adhesive as set forth in claim 29, wherein said tissue adhesive is present in virus-inactivated form.

Appl. No. 09/486,516 Amdt. dated January 13, 2006 Reply to Office Action of November 14, 2005

60. (Original) A tissue adhesive as set forth in claim 29, wherein said elastase inhibitor is of recombinant origin.

## 61-69. (Cancelled)

- 70. (Withdrawn) A method for treating wounds or hemorrhages with high fibrinolytic activity in patients, comprising administering an effective dose of a tissue adhesive preparation containing fibrinogen and an elastase inhibitor, wherein said elastase inhibitor is selected from the group consisting of eglin,  $\alpha$ 1-antiprotease, and mixtures thereof.
- 71. (Withdrawn) A method as set forth in claim 70, wherein said wound or hemorrhage is urological.
- 72. (Withdrawn) A method for treating wounds or hemorrhages in patients, comprising administering an effective dose of a tissue adhesive containing fibrinogen and an elastase inhibitor by means of an application device.
- 73. (Withdrawn) A method as set forth in claim 72, wherein said wound or hemorrhage is urological.
